Daphne's Dive Quiara Alegría Hudes, 2017-09-29 In a tucked away corner of North Philly, six regulars gather at a neighborhood watering hole. Over twenty years, they turn their collective memories into a vivacious mythology. The tales they'd rather forget, however, keep sneaking up and tapping them on the shoulder. At Daphne's Dive, an aloe plant, a girl's sneaker, a stiff drink, and mounds of trash become talismanic treasures to a group of outsiders trying to be "in" together.

Eager to Learn National Research Council, Commission on Behavioral and Social Sciences and Education, Committee on Early Childhood Pedagogy, 2001-01-22 Clearly babies come into the world remarkably receptive to its wonders. Their alertness to sights, sounds, and even abstract concepts makes them inquisitive explorers—and learners—every waking minute. Well before formal schooling begins, children's early experiences lay the foundations for their later social behavior, emotional regulation, and literacy. Yet, for a variety of reasons, far too little attention is given to the quality of these crucial years. Outmoded theories, outdated facts, and undersized budgets all play a part in the uneven quality of early childhood programs throughout our country. What will it take to provide better early education and care for our children between the ages of two and five? *Eager to Learn* explores this crucial question, synthesizing the newest research findings on how young children learn and the impact of early learning. Key discoveries in how young children learn are reviewed in language accessible to parents as well as educators: findings about the interplay of biology and environment, variations in learning among individuals and children from different social and economic groups, and the importance of health, safety, nutrition and interpersonal warmth to early learning. Perhaps most significant, the book documents how very early in life learning really begins. Valuable conclusions and recommendations are presented in the areas of the teacher-child relationship, the organization and content of curriculum, meeting the needs of those children most at risk of school failure, teacher preparation, assessment of teaching and learning, and more. The book discusses: Evidence for competing theories, models, and approaches in the field and a hard look at some day-to-day practices and activities generally used in preschool. The role

of the teacher, the importance of peer interactions, and other relationships in the child's life. Learning needs of minority children, children with disabilities, and other special groups. Approaches to assessing young children's learning for the purposes of policy decisions, diagnosis of educational difficulties, and instructional planning. Preparation and continuing development of teachers. Eager to Learn presents a comprehensive, coherent picture of early childhood learning, along with a clear path toward improving this important stage of life for all children.

Madonna Confessions Guy Oseary, 2008-10-07 In conjunction with this summer's most talked about concert, Madonna's highly anticipated Sticky and Sweet Tour, powerHouse Books will release Madonna Confessions, the official book of quintessential images taken by über-manager Guy Oseary during the course of over 50 performances around the world during the Material Girl's sold out 2006 Confessions Tour. With over 250 never-before-seen images, the book showcases various provocative themes from that show including an iconographic equestrian opening to an urban Bedouin segment and on to glam punk and disco fever. The photographs celebrate what the New York Times called the sheer spectacularity of her physical form along with show stopping highlights and groundbreaking staging. Oseary, who is also Madonna's manager and has worked with her for the past twenty years, traveled with the artist and was given unprecedented access to each performance. As a result, the photographs in Madonna Confessions capture the essence, sheer energy, and excitement that came alive onstage every night. The photographs were each lovingly handpicked by Oseary and Madonna and are interspersed with quotes from Madonna. Long considered one of the most exciting live performers of our era, Madonna Confessions is a visual delight that highlights the multi-Grammy winner and Rock and Roll Hall of Fame inductee's astounding career. powerHouse is delighted to collaborate with one of the world's greatest live performers; Guy Oseary's exclusive access to each night's Confessions show allowed him the opportunity to capture unparalleled iconic moments in live performance photography. The intimacy and the sweep of the work put you front row center of an incredible experience. - Daniel Power, CEO of powerHouse Books.

The Image of the City Kevin Lynch, 1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City,

formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

From Neurons to Neighborhoods National Research Council,Institute of Medicine,Board on Children, Youth, and Families,Committee on Integrating the Science of Early Childhood Development,2000-11-13 How we raise young children is one of today's most highly personalized and sharply politicized issues, in part because each of us can claim some level of expertise. The debate has intensified as discoveries about our development-in the womb and in the first months and years-have reached the popular media. How can we use our burgeoning knowledge to assure the well-being of all young children, for their own sake as well as for the sake of our nation? Drawing from new findings, this book presents important conclusions about nature-versus-nurture, the impact of being born into a working family, the effect of politics on programs for children, the costs and benefits of intervention, and other issues. The committee issues a series of challenges to decision makers regarding the quality of child care, issues of racial and ethnic diversity, the integration of children's cognitive and emotional development, and more. Authoritative yet accessible, *From Neurons to Neighborhoods* presents the evidence about brain wiring and how kids learn to speak, think, and regulate their behavior. It examines the effect of the climate-family, child care, community-within which the child grows.

Upside Down Eduardo Galeano,2014-05-13 From the winner of the first Lannan Prize for Cultural Freedom, a bitinglly funny, kaleidoscopic vision of the first world through the eyes of the third Eduardo Galeano, author of the incomparable *Memory of Fire* Trilogy, combines a novelist's intensity, a poet's lyricism, a journalist's fearlessness, and the strong

judgments of an engaged historian. Now his talents are richly displayed in *Upside Down*, an eloquent, passionate, sometimes hilarious exposé of our first-world privileges and assumptions. In a series of lesson plans and a program of study about our beleaguered planet, Galeano takes the reader on a wild trip through the global looking glass. From a master class in *The Impunity of Power* to a seminar on *The Sacred Car*--with tips along the way on *How to Resist Useless Vices* and a declaration of *The Right to Rave*--he surveys a world unevenly divided between abundance and deprivation, carnival and torture, power and helplessness. We have accepted a reality we should reject, Galeano teaches us, one where machines are more precious than humans, people are hungry, poverty kills, and children toil from dark to dark. A work of fire and charm, *Upside Down* makes us see the world anew and even glimpse how it might be set right. Galeano's outrage is tempered by intelligence, an ineradicable sense of humor, and hope. -Los Angeles Times, front page

World Literature, Cosmopolitanism, Globality Gesine Müller, Mariano Siskind, 2019-10-21 From today's vantage point it can be denied that the confidence in the abilities of globalism, mobility, and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken. In the face of this crisis, a key concept of this globalizing optimism as World Literature has been for the past twenty years necessarily is in the need of a comprehensive revision. *World Literature, Cosmopolitanism, Globality: Beyond, Against, Post, Otherwise* offers a wide range of contributions approaching the blind spots of the globally oriented Humanities for phenomena that in one way or another have gone beyond the discourses, aesthetics, and political positions of liberal cosmopolitanism and neoliberal globalization. Departing basically (but not exclusively) from different examples of Latin American literatures and cultures in globalized contexts, this volume provides innovative insights into critical readings of World Literature and its related conceptualizations. A timely book that embraces highly innovative perspectives, it will be a mustread for all scholars involved in the field of the global dimensions of literature.

Reinventing the Left in the Global South Richard Sandbrook, 2014-08-07 A fresh appraisal of the nature and significance of the democratic left in the Global South.

Citizens to Lords Ellen Meiksins Wood, 2011-08-01 In this groundbreaking work, Ellen Meiksins Wood rewrites the history of political theory. She traces the development of the Western tradition from classical antiquity through to the Middle Ages in the perspective of social history—a significant departure not only from the standard abstract history of ideas but also from other contextual methods. Treating canonical thinkers as passionately engaged human beings, Wood examines their ideas not simply in the context of political languages but as creative responses to the social relations and conflicts of their time and place. She identifies a distinctive relation between property and state in Western history and shows how the canon, while largely the work of members or clients of dominant classes, was shaped by complex interactions among proprietors, labourers and states. Western political theory, Wood argues, owes much of its vigour, and also many ambiguities, to these

complex and often contradictory relations. From the Ancient Greek polis of Plato, Aristotle, Aeschylus and Sophocles, through the Roman Republic of Cicero and the Empire of St Paul and St Augustine, to the medieval world of Averroes, Thomas Aquinas and William of Ockham, *Citizens to Lords* offers a rich, dynamic exploration of thinkers and ideas that have indelibly stamped our modern world.

The New Positioning: The Latest on the World's #1 Business Strategy Jack Trout, 1997-05-22 In the same right-to-the-point, no-nonsense style that was a hallmark of Positioning, this sequel squares off against critical marketing challenges such as how to make sure your message gets through in an era of information overload.

World Anthropologies Gustavo Lins Ribeiro, Arturo Escobar, 2020-07-13 Since its inception, anthropology's authority has been based on the assumption that it is a unified discipline emanating from the West. In an age of heightened globalization, anthropologists have failed to discuss consistently the current status of their practice and its mutations across the globe. *World Anthropologies* is the first book to provoke this conversation from various regions of the world in order to assess the diversity of relations between regional or national anthropologies and a contested, power-laden Western discourse. Can a planetary anthropology cope with both the 'provincial cosmopolitanism' of alternative anthropologies and the 'metropolitan provincialism' of hegemonic schools? How might the resulting 'world anthropologies' challenge the current panorama in which certain allegedly national anthropological traditions have more paradigmatic weight - and hence more power - than others? Critically examining the international dissemination of anthropology within and across national power fields, contributors address these questions and provide the outline for a veritable world anthropologies project.

Barrio Rhythm Steven Joseph Loza, 1993 The hit movie *La Bamba* (based on the life of Richie Valens), the versatile singer Linda Ronstadt, and the popular rock group Los Lobos all have roots in the dynamic music of the Mexican-American community in East Los Angeles. With the recent Eastside Renaissance in the area, barrio music has taken on symbolic power throughout the Southwest, yet its story has remained undocumented and virtually untold. In *Barrio Rhythm*, Steven Loza

brings this hidden history to life, demonstrating the music's essential role in the cultural development of East Los Angeles and its influence on mainstream popular culture. Drawing from oral histories and other primary sources, as well as from appropriate representative songs, Loza provides a historical overview of the music from the nineteenth century to the present and offers in-depth profiles of nine Mexican-American artists, groups, and entrepreneurs in Southern California from the post-World War II era to the present. His interviews with many of today's most influential barrio musicians, including members of Los Lobos, Eddie Cano, Lalo Guerrero, and Willie chronicle the cultural forces active in this complex urban community.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
